Profile

Goal-oriented individual with experience in developing and deploying solutions using Object-Oriented languages as well as web development technologies. Seeking a software development role to continue creating innovative solutions and driving success in a collaborative environment.

Work Experience

12/2022 – 03/2023   OTTAWA
Programmer Analyst
Government of Canada
- Planned and analyzed system application requirements, translating them into solutions using Object-Oriented languages such as Python, VisualBasic, and UiPath.
- Designing, developing, testing, and deploying Robotic Process Automation.
- Leveraged PowerApps, Microsoft PowerBI, and other data reporting tools to present to stakeholders and superiors.
- Configuration and maintenance of applications and products in support of four major courts.
- Collaborating with business analysts, process owners, and other stakeholders to identify opportunities for automation.
- Used Microsoft Team Foundation Service and Microsoft Azure Dev Ops to organize, plan and store projects and source code.

Work Experience

09/2021 – 04/2022   OTTAWA
Web developer
3 Skills Inc
- Developing and maintaining user-friendly web pages and applications using HTML, CSS, JavaScript, and Webflow
- Built RESTful APIs and integrated them with front-end interfaces.
- Utilized version control systems (e.g., Git) to manage code repositories.
- Integrated third-party services and APIs into webflow websites.
- Implementing and configuring Google Analytics for tracking website performance.
- Actively participated in Agile development methodologies, such as Scrum or Kanban.
- Collaborating with UI/UX designers and other stakeholders to implement figma concepts.

04/2019 – 09/2021   OTTAWA
Client Success Associate
Scotiabank
- Expertly handled customer inquiries and adeptly resolved complex customer issues with the online platform with transaction inconsistencies.
- Regularly explained the inner workings of credit and financial products provided by the bank to clients.
- Contributed to branch sales by analyzing qualified leads that were shared with Account Executives and Financial Advisors.
- Received positive feedback from the Branch Manager and District Supervisor for showing initiative, resulting in being the highest-rated employee in my role.

Tools and Technologies

HTML, CSS, JavaScript
Bootstrap
SQL
NodeJS
Angular, React
Java

Education

09/2020 – 08/2022   OTTAWA, CANADA
Computer Programming
Algonquin College
- Completed projects in Java, RESTful, SQL, Python, Advanced Network Development, Web development, Enterprise Application Development, Database Management, Systems analysis and design, and various SQL-based RDBMSs
- Graduated on the Dean's list with a 3.7 GPA

Volunteering

04/2018 – PRESENT   OTTAWA, CANADA
Youth and Operations Lead
MyChurch Ottawa
- Oversaw the planning, execution, and evaluation of various youth-focused projects within the church community.
- Developed and managed project timelines, objectives, and budgets, ensuring effective utilization of available resources.
- Recruited, trained, and supervised a team of volunteers, providing ongoing support and guidance.
- Organized and facilitated age-appropriate programs, workshops, and activities, promoting youth engagement and growth.
- Collaborated with church leaders, parents, and stakeholders to ensure effective communication and coordination of youth-related initiatives.
- Monitored project outcomes, gathered feedback, and prepared reports for church leadership and stakeholders.
